REPAIR FACILITY GUIDELINES FOR CLAIMS HANDLING

Follow these steps when handling a claim:

1. Advise the **Contract** holder that evaluation of a **Failure** does not mean that the repair is covered under this **Contract**. All covered repairs must receive prior authorization from the **Administrator**.
2. Have the **Contract** holder authorize the inspection/tear down of the **Vehicle** to determine the cause of the **Failure** and the cost to repair. Save all components, including fluids and filters, should the **Administrator** require an outside inspection. Notify the **Contract** Holder that the cost of tear down will not be paid if it is determined that the **Failure** is not covered under this **Contract**.
3. Determine the cause of **Failure**, correction required and cost of the repair(s).

 - b. Require Additional Evaluation, Inspection or Tear Down – The **Administrator** may require an inspection prior to the repair being completed. If a tear down is required to determine the cause of **Failure**, the **Contract** holder must authorize same. Notify the **Contract** holder that if the repair is not covered, then the **Contract** holder will be responsible for cost of the tear down. The repair facility should save all components requiring inspection, including fluids and filters. The Claims Advisor will arrange for the inspection. If the inspection is not made within forty-eight (48) hours, contact the Claims Advisor.
 - c. Deny the claim and provide the reason for the denial.
